

UNIVERSITÄT
LEIPZIG

Organized by

Dr. Nadine Utz

Managing Director, German BioImaging Society
for Microscopy and Image Analysis

Microscopy data: challenges of research data management and first approaches

- Research data management at the local level:
high fluctuation of staff, Locatability and allocation of research data
- FAIR data principle: findable, accessible, interoperable, reusable
- Comparison with other technologies: e.g. Protein Data Bank, UniProt
- Complexity of microscopy data and definition of meta data
- National and international efforts in the field of Image Data Management

24.06.2020

13:00 Uhr

Online via Zoom

**We look forward to your
participation.**
